**CONSTRUCTION
Sperry Avenue and Del Puerto Avenue Intersection Project**

This project will install all components to build out the intersection to its ultimate plan, including protected left turns to all legs of the intersection. The intersection improvements will include earthwork, asphalt paving, concrete curb, gutters, sidewalk, striping, and adjustment or installation of the existing or new signal equipment. The south-east corner of the intersection will be widened and the canal will be undergrounded all along Sperry. Additional utilities will be relocated as needed.

**CONSTRUCTION IS CURRENTLY IN PROGRESS
AND WILL CONTINUE UNTIL JUNE 2018.**
